xx.	Teaching Learning Process	Institute's teaching staff makes use of innovative methods of teaching which are student-centric and which support in fostering transferable skills such as problem-solving, critical thinking and reflective thinking and lead to learning experiences. Learning experiences lead to learning outcomes. Learning outcomes include: a) Disciplinary knowledge and skills, b) Generic skills and c) Attitudes and values. Institute has adopted various methodologies for enhancing students' learning experiences. Teaching Pedagogy followed is Student Centric, which focuses on hands-on learning, application base learning, experiential learning, inter-disciplinary application learning, team based learning and problem solving etc. These methods of learning are strongly anchored to the fundamentals that students learn in curriculum keeping in focus the COs & POs of different subjects. Hands-on / Experiential Learning: Programming for an app or using various languages, solving real life organisational problems is an example of experiential learning. Students of MCA develop applications every semester, based on technology learnt. They undertake live problems as projects, related to industry, society, academics and apply technology to solve them. Reports are prepared and viva voce is conducted of the same. Participative Learning / Team Based Learning: Team based challenging assignments are given to students. Case studies, group

		assignments, secondary data sourcing and working out solutions in these are encouraged. Application based Learning: Students of MBA Programme take up specializations from Sem II itself. Students are taken for Industrial Visits according to their specializations. This helps students to connect fundamentals to application, understand corporate practices, get internship projects and even final placements. Teachers use ICT enabled tools like Zoom, Google Meet, Google Classroom, Youtube for making learning sessions interesting for students. Classrooms are equipped with LCD Projectors and sound systems, which makes learning process effective. Class-wise Whatsapp groups are made for daily communication and academics and as an effective tool to share notes, placement information and relevant material with students.
